

Family Bible Story Video

We would love for families to join in and make their own Bible story video!

So you want to make a movie? Here are a few tips to help you along your way...

1. Please always film with your camera on the landscape angle.
2. Film in a location with good light, like near a window.
3. If there is a loud background noise such as a lorry, or giant bird, please restart the filming.
4. Please don't add any background music.
5. As with all good movies, please make sure there are no brand names present on clothing, or items in your home.
6. Please don't add any personal details into your film.
7. Please make sure you have permission to film everyone who appears in your video.
8. Please send videos through in either mp4 or .mov format
9. Smile
10. Speak slowly
11. Have fun!

Once your video is made, please email it via [Wetransfer](#) to Matt.
